Zemeckis delivers his most touching picture since 1997's "Forrest Gump" with this 20th-century fable of good and evil, and life and death. "A Story of the Year," the film's title, evokes the old saying about the Oscar, that it's given to "the best picture with the most heart." Hailed by critics as an inventive epic, by Hollywood insiders as a lightweight project, "Cast Away" nonetheless has won plaudits and wide audience appeal. Set off-shore from New Zealand's Otago Peninsula in the summer of 1998, it stars Tom Hanks as Chuck Noland, a stock trader and single parent who had served the Navy for seven years. Chuck is earnest, devoted and sexually frustrated. Like the crew of the whaling ship he works for, he's bound by an ancient code that decrees that he must never let his daughter Sam (Alessandra Ambrosio) learn about his job. But, unlike his fellow sea-men, Chuck is a paragon of responsibility. When his fishing line and radio breaks, he's the first one to volunteer to retrieve it. His wife Nancy (Michelle Pfe 5b5f913d15

What's New In?

Contour Styles and Contour Graph Styles: Rapidly create contour styles and contour graph styles from shape styles, and transfer those styles to new shapes. With the built-in Class Manager, you can create custom contour styles and contour graph styles from the classes that best match your objects. (video: 7:17 min.) Customizable Toolbars: Create a customized set of toolbars, and use them in your drawings. With an assortment of customizable icons, toolbars can be customized with colors, sizes, and more. (video: 2:20 min.) User-Defined Methods: Define functions and scripts to aid you in your work, or use pre-built scripts to automate common tasks. Define custom methods in models and drawings to enhance productivity. (video: 1:15 min.) Drawing Commands: Edit custom drawing commands on the fly, and quickly recall them when you need them. You can edit drawings in your drawing window, and save those edits as a custom drawing command. (video: 3:02 min.) Variant Properties and Field Arithmetic: Explore the power of variant properties, and quickly calculate values for custom properties. Variant properties display, edit, and evaluate values in all the layouts of your drawing model. (video: 1:24 min.) Extended Layers: Each layer in your drawing model is represented as a separate layout, and you can extend and collapse layers. In addition, you can create and apply an active layer that you can use to quickly navigate through layers. You can also interactively add and remove layers, and change the active layer with the Layers Panel. (video: 1:48 min.) User-Defined Paper Size: Create paper sizes, and draw within them in your drawings. With the new Page Setup tool, you can define custom paper sizes with page margins, orientation, and other page-related attributes. In addition, you can define custom paper sizes as envelopes. (video: 1:56 min.) Grid and Reference Views: Rapidly define grid and reference views to enhance your work. Select a single object, create a reference grid, and instantly convert your object to a reference object. With the new Reference View window, you can select an existing view and easily save it as a grid. (video: 4:31 min.)
