I'm not sure what the issue was but it's out of my price range to repair so I'm giving up. This was a gift but I don't recommend this app to others. Some of the bugs were pretty major. For example, the progress bar would sometimes not update even if the progress towards the end was pretty much completed. It's hard to say if this is a flaw with the app, or a flaw with my phone. On another note, the watermark is a bit too small and a bit too low. On a 1080p screen the watermark could be seen easily. Some of the bugs were pretty major.
