I'm on a USB stick at the moment, using it to read a couple of much-needed books, but I really look forward to using this product on a larger screen, and you can certainly expect me to use it! I enjoyed the nice interface, and was very fast to use. I found the option to view history and the tab to clean the browser history very useful. Please remember that Wikipedia is not an encyclopedia, so please be very careful about the information you do get from it.COMMENT @% %% %%%%%%%%%% Copyright (c) GeoWorks 1994 -- All Rights Reserved PROJECT: TopCat MODULE: Active
