Once on the activation screen: run XFORCE Keygen (as administrator and with UAC disabled).⁹ Press Mem Patch (you should see a successful patch). Open the folder with the name you installed XFORCE. In the folder you will find the XFORCE.COM file. Copy this to the folder you want to activate with Windows Keygen. After copying, XFORCE.COM should appear in the folder with the name you installed XFORCE. Click the Start button and type "key.bat" to activate XFORCE. After pressing Enter, you will see the message "Successful". This will enable XFORCE. Note: you should see that XFORCE
