December 16, 2015 - Can anyone recommend any terminal management software for my PK-232MBX? Need a VHF package. I have found several solutions offering various combinations of Linux and VHF which seem to be mostly useless. For example, Ubuntu Software Center (currently in version 9.5) and OpenVHF. Is there any definitive software available for this? Thanks For more information see <http://www.pocoo.com/en/products/common/products/pocoo/tftp/> I personally chose Pocoo because it can manage multiple terminals in a single tftp session.
