
Pokemon Diamond And Pearl Gba Download For Pc

Download an emulator like desMume. This is the best. I used it. You can also use No\$GBA. Open the emulator and browse until you get to . This is the way you install the game on Windows. In the emulator, select the .sh file and paste it in the appropriate location. You can read the instructions you will find in the readme.txt file. If you have installed the .sh, you can use the command to download the game. You can check the status of the game by entering
