User Reviews Related 26 Comments This game looks very interesting and has a lot of great features for a game that I'm sure is going to be a lot of fun to play. I can't wait to get it and make my own little wizard to go around and explore. Its very interesting and intriguing too. The game looks much better than I'd expected, and looks like a ton of fun to play. I would definitely suggest this to any other Wizard101 fans. I'm interested in what gameplay style it will be, which one of the 4 mini-worlds

that are available, and how long it'll take to beat it. As I said above, I can't wait to get this game. I'm very interested in what the gameplay is going to be like and which of the 4 mini-worlds it will be available in. I like the way the Castle grounds are outlined in the screenshots, as they look really nice in their own way. I'm definitely willing to give this game a try and see what it has to offer, as I'm interested to know how the gameplay will be, as well as which of the mini-worlds are available. And I'm willing to bet that it looks and sounds like it would be a lot of fun to play. In my opinion, I think this game could look awesome c9d1549cdd
