1.00/5 "There is no plot, nothing of any worth to do." "There are a few interesting things to do, and there are certain elements that are supposed to be interesting, but really, they're just a bunch of overdone clichés thrown together with a bunch of puzzle segments." 0/10 "Nothing interesting. Perhaps you'll find a sword and run around looking for monsters to beat to death and gain experience, or maybe you'll get a ship and sail through the shore-less waters." "This game, so-called adventure RPG, is terrible. It has no story, no plot, no characters, and is not a good game for any reason whatsoever. The puzzles are either too hard or too easy. The graphical style and animation are simply horrible. In short, this game is a waste of time and has no purpose in this current generation of gaming. I advise you not to buy it!" "This game has no plot, no good characters, no interesting mechanics." 2.50/10 "You will get bored of this game very soon" "I also liked the

idea of a story-less RPG where everything is a puzzle, but that's just not how it works here. It's not a very fun game." 0/10 "This game made me want to punch something. That's not a good sign for a game." "The puzzles in this game are just plain bad and they just get worse the more you progress. The story is also completely ridiculous." 1/10 "There's really not much here for the price." "What a waste of money." 0/10 "I want to like this game, but it's just too hard." "I played this for a while and loved it, but the gameplay wasn't what I wanted. I am looking forward to seeing a successor to this and hope that it's better." 0/10 "I was disappointed by this game. It's amazing just how bad it is." "The game should be obvious in how badly it is written bff6bb2d33

What's new:

Tarnished)They are characters that can give an impression of character both during battle and conversation, and this idea is reflected in what the background of the characters' appearance is. For the sense of a picture painted to "the end," on the front part of the ears, the faces are smiling while the back sides are sad, where the others end up being reserved and expressionless, the design and the pattern are reflected in the full suit of armor as well... □□□□□□□)

What is the new fantasy action RPG and how to play it in a nutshell: The game originally began development with the aim of creating a fantasy action RPG with an emphasis on depth, while the name was still in the planning stage, the developer decided to change the title to ELDEN RING after discovering the name "The New Fantasy Action RPG" was already registered in another company. You start out in the village of Ulrenion as an ex-sheriff who has just fallen from grace. However, the game's deep story is almost too large for a long-form game, and thus the plot is divided into episodes of three chapters each. These episodes will focus on a single cast member who you'll guide through their trials. The series of trials is actually a unified story that takes place over three books, but you begin the game by choosing your storyline as you please. The start of your story: Your character's village was destroyed by an unknown army and your mother is missing. Since you can't stay in your father's home any longer, you venture into the Lands Between to seek justice for your family. In this vast region, you'll walk through different maps and immerse yourself in the world of the Elden Ring through quests and battles. Main features: 1. An exciting action game play where you can use a variety of weapons and armor to overcome all dangers. 2. You can freely switch between a variety of magical attack abilities and devastating melee attacks. 3. By customizing your character's appearance, you can develop your character to be as powerful as you want. 4. You can experience the vivid graphics and amazing settings of the Lands Between. 5. By synchronizing with other players and going through missions together, you can meet new people and travel to different places.
