Fx Guru Enter Code For Free Fx Guru Enter Code Fx Guru Enter Code Mod So, I upgraded to the most recent version (2.4.3) but I am still getting the error message that the previous version (2.4.2) is currently causing. I don't know if I have to go back to a previous version for a while? If I do that will I still be able to use the FXGuru Facebook app? I've tried a few codes and I haven't been able to get past the error message. I was able to enter the default unlock code to remove the error and then nothing was able to be entered for the codes. Any suggestions on what I can do about this? When I get the error message it says: The status object at the location I'm looking for has been deleted. I've tried a couple of codes listed in this thread and I've not been able to enter any code successfully. I don't know if it's the codes they have listed or if it's my version? It's still set to 2.4.2. I haven't tried a code for over a year or maybe longer. I just haven't tried any code since 2.4.2. I have been able to enter unlock codes for a previous version of FXGuru and I've found that I can enter codes for both Macs and Windows. It's probably just because it's beta version of V5.2 (which is the latest so far) and it's just up to Fx Guru to get more of the stuff working. If I can enter unlock codes for both Mac and Windows and the locked you can delete the status object it's on then enter a default unlock code and it should work. I've been unable to find any unlock codes for either Mac or Windows for FXGuru yet. Update: Unlocking a FXGuru video makes a screenshot of the screen and saves it to the photo library of your Android device. Here is a tutorial how to unlock the FXGuru video and share it on Facebook. There is a way to remove this message. You need to go into Settings, Fx Guru, and in there you can delete the message. You can remove it, but I do not know if it really removes it. Please check that it really does remove it because I don't want to have it in case something changes in the future. This is for Android 2.3 - I 0cc13bf012
