It is also a perfect gift for a bridal client who wants to remain conservative. Clean: When presented with a diamond ring in a jewelry shop, you are usually asked to view the stone with a standard light. A diamond can appear yellowish or even have a brownish color in most lights. The days of diamonds being preferred or preferred over other gemstones are long gone. Today, the most important reason you want to keep your diamond clean is because the most important to the whiteness and sparkle. A dirty diamond makes the diamond hard to see. Driving - Diamonds are naturally found in the depths of the earth's crust. Because of this, diamonds are

very hard. While a rock from the earth's crust is harder than concrete, it is a very smooth surface. With smooth surfaces, any scratches, chips or imperfections are visible. When exposed to UV rays the natural substances in the earth's crust can tint the diamond, making it appear less white than it really is. This is particularly true of a diamond that has been subjected to chemicals or "treatments" such as the old saturation process. Treatments like this can often make a diamond appear yellowish. To ensure the best diamond to shine in your car (or in a dark storeroom), take it to a jeweler you know and ask them to clean it. An experienced jeweler will be able to spot flaws, or at least know enough to help you avoid them when selecting diamonds. Cleanliness plays an important role in buying a diamond that you will enjoy for many years to come. It is also a great wedding gift that can preserve the whiteness of a diamond forever. Platinum: Finding the best platinum engagement ring in your budget can be a difficult task. Because of this, many people end up sticking with traditional diamond
