Legend VALLAKAS: THE PSYCHIC WITCH Protection against: Wards Over the past year, the internet has had a craze for the Valla Kas witch, a small-time Nigerian illusionist who claimed to have the power to invoke powerful voodoo spirits. The Valla Kas witch was a clear target for the 3D printing dream, which has taken over the internet to add shadow magic tattoos of demons, goblins, and other such properties to users. They look great, are difficult to replicate, and are relatively inexpensive, making them a potentially dangerous addition to the User's arsenal in a world where even Super Mario bros are made primarily of paper. See the rest of the entry below to become completely obsessed with shadow tattoos and 3D printing. Before printing: If you were to have pre-printed these tattoos, what color should they be printed in? Giving the user a glimmer of control over material is a smart idea for a plug-in, and great for those of us who wish we were makers. How It Works: Valla Kas, more commonly known as "witch," is a female sorcerer who learned the art of voodoo from her family in Nigeria before joining the Federal Anti-Evil League. Although small in stature and with short brown hair, she has the power to conjure any type of force she wishes. She can summon demons to fight for her, as well as bring back the dead. She is said to be 100 years old, and due to her advanced years, the world of voodoo has kept her mystical gifts at bay to protect her. Much of Valla Kas' shamanic magic has been in control of cults as far back as they can be traced, and she was given the rank of "Ozie", the highest rank in the F.A.E.L. circle. Bones of the Valla Kas: Head: Although Valla Kas is a female, she carries a plethora of spirits in her head. They help her in many ways, the most important being the voodoo power to stop the dead from rising back to life. Should a person die, Valla Kas can bring them back

to life with a single chant. Poisons and Healing Offered by Valla Kas: Valla Kas makes all kinds of potions, but the most notable powers that stem from her head are The granting of healing powers,
