Developer Letter:

We're doing our best to create, play on STEAM, a game that is a fitting treasure trove for both young and old. Elden Ring was born from our deep desire to create a fantasy story born from the childhood dreams of young gamers, one where you can move freely and take off with the wishes and determination to succeed. And I'm here to state that we will keep creating what is able to still capture those dreams for as long as we can. Elden Ring features deep and challenging gameplay from the beginning, as well as a place that is not just a fantasy, but also a place full of themes that are not just fantasy and not just easy. All this to make your adventure with the Elden Ring a complete feeling that will be as satisfying for all ages and all play styles. I firmly believe that we will strive to create a title that draws in people and creates a high sense of accomplishment when the game finally comes to an end.

Also, we will be releasing new information for you as we add development progress to our website

What's new:

The FALES setting is a virtual world where you fight in multiple worlds connected to one another at the same time and at the same place. Players collaborate with one another while adventuring in the online game, which is what you might often see in games like MMORPGs. However, in the online game, the communication is indirect. Even when you are alone, you can communicate with the other players in the game.

The virtual world you live in is what we call the Lands Between. The Lands Between are not the real world. Since the Lands Between is a non-physical realm, you can enter the Lands Between and roam at will through a vast world at the same time. You can also easily move between the different worlds in the Lands Between.

When you wander in the Lands Between and fight, your movement speed increases. The Lands Between are the field in which battles and events take place, with its own combat style. The Lands Between is where you go to safely dispatch wild beasts, explore, and enjoy various culture.

"If the media were willing to call out Nazi ideology, maybe it wouldn't be on the rise," he told HuffPost. On Aug. 12, the Ku Klux Klan, Neo-Nazis and other white supremacists gathered to protest the removal of Confederate statues. A fight broke out when a counter-protester was killed when a Nazi sympathizer drove a car into a crowd of protesters. The crash occurred at the entrance to the University of Virginia during a rally known as the "Unite the Right" rally. White nationalists say "Unite the Right" was meant to denounce the removal of a statue of Robert E. Lee, a general for the Confederacy and slave owner. Protesters held signs that read "Jews Will Not Replace Us" and "Secede." The state and local police are currently investigating the crash.
