◆ Seamless Battles in a World Connected by Story – The Parchment of the Dragon Knight is a job quest from the Elden Lords. Filled with the stench of blood and death, the Dragon Knight shows up out of nowhere, taunting you. Facing off against the Dragon Knight becomes a trial of not only your physical strength and magic power, but of your mind as well. The quest is divided into three main phases. In the initial stage of the combat, you must prove the strength of your warrior's soul while you are attacked by the enemy. In the second stage, you are required to protect the fellow members of your party from the enemy's attacks, as well as perform healing magic. The final stage of the quest is to defeat the Dragon Knight by gathering the famous Dragon Knight's Sword, which you can obtain after the quest is over. Once you defeat the Dragon Knight, you will receive the Dragon Knight's Sword. This will allow you to enact your own plan to take down the Dragon Knight, using the Dragon Knight's Sword as your weapon. You can then have your party and you, your foes, or an ally that is under your party's control engage in fierce battle, with your goal of defeating the Dragon Knight. Furthermore, in the game, although battles are automatically conducted in specific locations, those locations can be anywhere in the world. As long as your party and enemy are present, the Battle System can be conducted in those locations. ◆ A World in which Characters and Backgrounds Blend Beautifully into Each Other The characters and backgrounds of the world are not made of separate components, but are rendered by vector graphics. As the characters move, so does the background. The entire world is represented by one piece of digital data, and every small piece of the map is seamlessly rendered. This allows for deep dungeons to be constructed, and interactive character customization to occur. ◆ Easy Battle and Easy Combat in a World Connected by Story – The Battle System The battle system contains a technical feature called "Battle Trigger". Before battle, as well as during battle, the battle system automatically sets the proper conditions for battle. This allows for easy, smooth battles, without any need for the player to do any battle management. Furthermore, by summoning your party's characters during battle, you can easily switch from dialogue to battle. During battle, the battle system also automatically switches the monster character's attack form, or dashes to nearby allies

Characters repeat their dialogue and act according to their character, no matter if they are engaged in combat or chatting. While in battle, they react to the enemy and decrease their health based on their level. This system allows us to depict the characters in a lively way and goes beyond the gameplay of the previous titles.

Immersive Fantasy Experience

Character motions and the way the camera behave have been modified to create a stately fantasy world with detailed atmosphere. In addition, we integrated environmental conditions such as shadows, lighting, and ambient sounds into the tactical battles, so Sword Art Online - Aincrad 3.0.0a1 will immer

North Korean leader Kim Jong Un has announced a nuclear test site will open soon. Kim Jong Un said, in a televised address, that the Hwasong-15 ballistic missile, with a "reliable strike ability" had succeeded in striking "a target of strategic significance" in an area near the country's east coast. "We have confirmed the successful detonation of a hydrogen bomb in a safe and perfect way and with the ultimate goal of completing the state nuclear force," Kim said, according to state news agency KCNA. The US Pacific Command (PACOM) had speculated that the country could have done that some weeks ago, according to a defence official speaking to Reuters. Speaking anonymously at the time, the official said that the site was roughly 175 miles (280km) east of Pyongyang. 4:08am There were no US warships in the region, Pentagon officials said. The missile apparently flew over Japanese airspace for an estimated distance of more than 930 miles, according to the South Korea's Yonhap news agency, the longest reported flight distance for a North Korean missile. Kim would likely have been aiming for part of a US base or military facility as well as a major airfield in the area. North Korea has threatened pre-emptive strikes against the US, South Korea and Japan, and has said it's considering firing missiles near Guam. Wednesday's test was an apparent response to the United Nations Security Council's unanimous adoption last week of new sanctions aimed at curbing Pyongyang's nuclear and missile programmes. Pyongyang may be attempting to draw a distinction between "sanctions" and "provocations" to advance its security agenda. North Korea has conducted two nuclear tests in the past, in 2006 and 2009. It said in April last year that it had successfully produced a miniaturised warhead that could fit on a long-range missile, a claim widely accepted by analysts. According to state media, Kim made other remarks on Wednesday, declaring a suspension of long-range missile and nuclear tests and a halt to "reckless nuclear war practice". Mourners at funeral for U.S. soldier killed in Syria in 2014 4:06am Shortly after Kim Jong Un delivered his speech, state media reported that he "ordered the test of bigger-caliber nuclear weapons to be conducted in succession". He also ordered the construction of a new facility for testing submarine-laun

I have been on the hunt for months now for just the right hoop and I am so glad I found it! With a 1x5 hoop this project can be done in a day and done on a budget too! I used some prima flower beads and some more then on of the Hannah Grace designer papers that are awesome to play with. I started with the pink and it turned out pretty bold! Here is me with my hoop out. Do you even own a hoop? That is all I need to say! I love playing with my hoop it is like the best toy ever for my crafting. It is versatile, it can be used for all sorts of things, it is easy to move around the house so I can keep it out and not break anything and I have no trouble finding the right thread or ink to go along with it. I love having the fabric frame out. The hoop can be a lot less or more depending on how big your design is. I added a bit of embroidery, stitch around the outside of the flower. For my next project I will be doing a 2x3 hoop with Hannah Grace. I always say my projects are evolving and the design on this one will change. I have a great sketch in my head and will let you know the finished product in a few months. After I finished all my bridal shower projects I decided that I should make a goody bag for my post baby shower. Like a lot of new moms I am always trying to think of a great gift for new moms that will be something she will want when baby gets here. This project that can be done in about an hour and then on to sewing a new baby jacket for her! This project is perfect for those of us who have sewing machines but do not own a sewing machine in the house. My old machine does not work at all and I need to order a new machine. With this project you do
