Adobe Flash Builder 4.5 for AutoCAD is a web application framework that supports AutoLISP and Visual LISP. Graphic applications Several AutoCAD graphic applications are available for Microsoft Windows and Linux, Mac OS and various other platforms: AutoCAD Mechanical : Engineering design and analysis software. AutoCAD Electrical : Electrical design and analysis software. AutoCAD MEP : Mechanical engineering, electrical, and plumbing design and analysis software. AutoCAD Architectural : Architectural design software. AutoCAD Civil 3D : Civil engineering and environmental design software. AutoCAD 360 : Platform design and analysis software. AutoCAD 360 360 : Mobile platform design and analysis software. AutoCAD 360 Custom Design : 3D modeling software for architectural and interior design. AutoCAD 360 AEC : Architectural and environmental design software. AutoCAD 360 FLEX : Interior design software. AutoCAD 360 Design : Multi-disciplinary design software. Visual programming languages AutoLISP and Visual LISP are the two visual programming languages used by AutoCAD. Visual LISP is a scripting language that is designed to be easy to use and intuitive. It is based on the BASIC programming language. In Visual LISP, macros are similar to subroutines in traditional programming languages. In AutoLISP, macros can operate on specific objects, whereas in Visual LISP macros operate on a certain selection of objects. In Visual LISP, you can call macros from any object using the CallMacro() function. AutoLISP provides the Application Programming Interface for Autodesk 3D Studio Max and Maya to allow direct communication with Autodesk's products. This interface allows automated creation and manipulation of new assets, animation, animations, camera motion, batch, script and other tasks. Another way to use AutoLISP is to create custom AutoCAD macros or Visual LISP add-ons. Many third-party developers have created add-ons to extend AutoCAD. Visual LISP is one of the programs that can be used to create add- af5dca3d97
